- **Tools:** Git, GitHub, Vite, VS Code, Chrome DevTools, Netlify

Projects

SaveMyMoney – Personal Finance Management Platform

Next.js 16, React 19, TypeScript, Tailwind CSS v4, shadcn/ui, Prisma ORM, PostgreSQL, Better Auth, React Hook Form, Zod

- Built a full-stack personal finance management platform using the Next.js App Router.
- Implemented secure authentication and protected routes using Better Auth.
- Designed a responsive dashboard for transactions, budgets, goals, reports and categories.
- Built reusable UI components using shadcn/ui with scalable component architecture.
- Integrated Prisma ORM with Neon PostgreSQL.
- Added robust validation using React Hook Form and Zod.
- Focused on clean folder structure, reusable code and responsive design.

Electro – Amazon Inspired E-commerce Website

React.js, Redux Toolkit, React Router, Tailwind CSS, JavaScript, Vite

- Developed a fully responsive Amazon-inspired e-commerce website.
- Implemented shopping cart and wishlist using Redux Toolkit.
- Built reusable components and dynamic routing with React Router.
- Optimized UI for desktop, tablet and mobile devices.

Weather Application

React.js, JavaScript, OpenWeather API

- Integrated OpenWeather API to fetch live weather data.
- Implemented city search, error handling and responsive UI.
- Built reusable React components with clean architecture.

Experience

Frontend Developer | Personal Projects

June 2025 – Present

- Built responsive and scalable frontend applications using React.js and Next.js.
- Followed component-based architecture and reusable UI development.
- Used Git and GitHub for version control.
- Optimized application performance and responsiveness.

Education

Bachelor of Computer Applications (BCA)

Maharaja College, Arrah

Apr 2022 – Aug 2025
